

JAPA Equipment Rentals Inc is proud to be the exclusive Intensus dealer in Western Canada!

We are excited to bring the full Line of Intensus Construction equipment, specializing in Soil and Asphalt Rollers, into Western Canada. With over 50 years of experience and technology, and designed and manufactured to meet international-leading standards, Intensus compactors are designed for rapid compaction of all types of soil, gravel and asphalt. The machines provide outstanding compaction, performance and superior productivity. Intensus packers are designed around their simplicity to service, as well as a comfortable and well-organized environment for the operator.

At JAPA, our number 1 priority has always been customer service. If you require new or used Intensus parts: we can locate the part and provide prices and availability in a matter of minutes. If you require service, our expert Service Technicians will provide friendly, professional, and timely service either in our fully equipped shop or in the field.

JAPA Equipment Rentals Inc, in partnership with Intensus, recognizes the demands of our market place and strives to ensure the maximum performance of the equipment at the lowest possible cost. We are well aware that our success is directly related to our ability to provide our customers with high-quality equipment and superior product support.

JAPA Equipment Rentals Inc; the exclusive Western Canadian Intensus dealer for sales, rentals, parts and service - We have the equipment and the support to get your job done!
